

NUUO Titan NVR

OPEN • POWERFUL • REDEFINED

WHY CHOOSE TITAN...

1 Centralized, Unified, Consolidated

NUUO Titan NVR is built with central management architecture. Sync up to 100 servers, 400 live views and 100 channels simultaneously.

2 Optimized Recording

Supports multiple codecs, presets, with a recording engine built for stability and guaranteed file throughput.

3 Unparalleled Viewing Choices

Supports viewing on Windows, Mac with clients available for IE, Firefox, and mobile viewers on iOS and Android.

4 Direct, local display port built on unit

NUUO Titan NVR support maximum of 16CH(NT-8040R/NT-8040RP) or 4CH(NT-4040/NT-4040R) VGA spot out.

5 Flexible Storage Options

Multiple RAID options 0,1,5,1+0 & external storage support.

Recording engine that performs

Did you ever experience NVR hiccups during large amounts of video data transfer, or worse, data dropouts? Missing or blacked out frames making the video stutter and useless. File Ring can keep your hard drives running smooth, no matter how big the video file is.

Auto Scene Stitch

We understand how confusing it can be to monitor down a long hallway or large area. You got 6 cameras all pointing at the same area from different angles. Orienting yourself on screen can be tricky when things are happening. NUUO Titan NVR offers Image Fusion that can stitch all the camera views into one complete scene, truly effortless monitoring!

Free Yourself from Virus

NUUO Titan NVR is built on Linux platform, with MAC client available. This is the best way to stay away from virus attacks, and also perfect for educators and enterprises where Linux and Macs are readily available!

Your Data is Safe in Multiple Ways

NUUO Titan NVR has multiple ways to protect your valuable data. NUUO Titan NVR supports multiple RAID options, external storage, and we even offer models with redundant power option (NT-8040RP). Choose NUUO Titan NVR and put your mind at ease.
